Présentation

Description

After a diagnosis carried out to establish the level of oral English, the student will receive work leads. The evaluation will be carried out during the defense in English of the student experimental project.

Students will have the opportunity during the year to prepare and sit for the English certification implemented at the University.

Objectifs

The audiences of Master 2, fully taught in English, are diverse. Some students will have obtained the certification at the end of Master 1 and will continue to deepen the 4 language skills (written and oral comprehension, written and oral expression). The first objective is therefore the consolidation and deepening by the practice of these four linguistic skills in order to reach (or consolidate) a level of certification (type B2 level) defined by the European Framework of Languages.
