

UE3 : Evolution and challenges of French and international industries

Niveau
d'étude
BAC +5 /
master

ECTS
3 crédits

Composante
Faculté des
sciences

En bref

- › Langue(s) d'enseignement: Français
- › Ouvert aux étudiants en échange: Oui

Présentation

Description

- Introduction to the organization and functioning of the sector
- Identification of issues (brainstorming) and preparation of company visits;
- Proposal of solutions to meet the challenges
- Company visits or Field trip (3-4 days)

Each issue will be analyzed on the basis of company visits carried out during the study tour.

Each group of students will have to propose solutions to answer to these issues and will present them in the form of a poster or other way of communication.

Heures d'enseignement

CM	Cours magistral	2h
TD	Travaux dirigés	2h
TP	Travaux pratique	20h
TPERSO	Travail personnel	8h

Pré-requis obligatoires

Basic knowledge and issues of the plant sectors.

Describe the different actors of a plant chain and their role.

Compétences visées

- Be able to identify the issues at different levels (from the company to the sector);
- To be able to evaluate the capacity of the sector to respond to these challenges from its organization and functioning and to participate in its evolution;
- To be able to position oneself as a future player in this sector
